

GEOMETRIC FABRICS AMBA AQUACLEAN® FABRIC CARE & MAINTENANCE GUIDE

AQUACLEAN® TECHNOLOGY ADVANCED UPHOLSTERY PROTECTION

Aquaclean® means that even the most stubborn stains can be removed easily with water. The **Aquaclean® Technology** used in this upholstery fabric helps destroy the majority of stains with just water, without having to resort professional cleaning.

WHAT IS AQUACLEAN?

The Aquaclean® treatment system covers every single fibre with an invisible molecular coating.

This helps to prevent dirt penetrating the fabric's fibres.

Stains are easily removed by just applying water with a paper towel or a microfibre cleaning cloth.

Care & Maintenance

Vacuum regularly and remove dust particles with a damp microfibre cloth, this will help to prolong the life of the fabric and keep it fresh looking.

Stain Removal

This is how Aquaclean® technology works:

- Remove excess liquid or particles from the surface of the fabric
- Dampen the stain with by applying water with a paper towel or a microfibre cleaning cloth.
- Rub the stain softly in circles to remove the stain

Geometric House, Lark Hill, Townley Street, Middleton, Manchester, M24 1AT.
